

ARE YOU READY

- To reclaim your leisure time?
- To save your business money?
- To minimise business risk?
- To secure your valuable data?

THEN YOU'RE READY FOR THE WORLD'S FAVOURITE SERVER

HP PROLIANT SERVERS POWERED BY INTEL® PROCESSORS, AND
PRE-LOADED WITH MICROSOFT® SMALL BUSINESS SERVER 2003

These HP ProLiant servers improve the performance of your business by managing your information more efficiently. That's why they're chosen by more businesses worldwide than any other server¹.

It's easy-to-use technology that allows your employees to share documents quickly, manage databases, easily run software applications, use printers and email across a network, and enhance their internet usage. You'll be able to respond faster to your customers, save your business money, secure your valuable business data and reclaim your leisure time for the more important things in life.

Introducing the 3rd generation HP ProLiant ML110 server powered by the Intel® Pentium® 4 Processor – now with a smaller footprint, improved memory, enhanced 3-year warranty, and pre-loaded with Microsoft® Small Business Server 2003 and 3 FREE licenses of Trend Micro spam and spyware software.

Finally, a business manager that works 24/7, so you don't have to.
